

About Us

New Horizons Un-Limited (NHU) is a Milwaukee-based, non-profit, 501 (c) 3 organization serving individuals with lifelong disabilities and their families since 1994.

New Horizons Un-Limited has two basic goals.

- To make accessible to the disabled the opportunity to experience the beauty and wonder of life with dignity as an equal member of society.
- To bring society to respect, value and welcome the disabled into the community-at-large and accept the participation of the disabled in all the infinite experiences of daily living.

To achieve our goals...

- We have created an on-line resource to make information on the many issues of daily living accessible.
- We have created a network to make the sharing of daily living experiences possible and to create a virtual community where individuals can support each other by sharing found solutions to common problems.
- We have established, via community partnerships, computer training programs to make technology accessible to people with disabilities.
- We have established a computer distribution program in cooperation with our business partners.
- We have sponsored the construction of accessible cabins in state parks to allow individuals to enjoy nature and the outdoor experience.
- We have sponsored sails for the disabled on a tall ship to challenge both mind and body.

In short, our objective is to foster a revolution in the way the disabled think about themselves and the way others view the disabled. It is this shifting of attitude that will bring people with and without disabilities together to live, learn and work in our communities and therefore allow us to enjoy the benefits of a fully inclusive and active society.

NHU's Community Initiatives

Information Exchange Network

Our network is designed to foster the development of self-help, self-advocacy, self-empowerment and ultimately self-sufficiency among people with disabilities. This network offers several educational elements:

- NHU Informational Website
- NHU Community Discussion Board
- On-line Information and Referral
- *CommunicAbility*, Quarterly Newsletter

Access Technology

Via our Access Technology Initiative, it is our goal to increase technology access among those affected by disability. We accomplish this goal by:

- Establishing community partnerships to develop accessible computer training programs.
- Offering Traveling Computer Workshops to entities that serve our disability community.
- Distributing refurbished computers to community members with disabilities and local non-profits.

Access Recreation

We have recently begun developing partnerships with local cultural organizations in the Greater Milwaukee area to develop a comprehensive plan to welcome and serve members of our disability community. In addition to creating an overall awareness campaign, we are also working to develop a special day in which these venues can demonstrate their commitment to serving people with disabilities.

Silver Spring Country Club

Silver Spring Country Club is located on Silver Spring Drive in Menomonee Falls, Wisconsin. Their two signature courses, **The Island** and **The Falls**, each provide a unique golf experience and a test of shot-making abilities. They offer 36 holes of spectacular golf, good enough to be given a 3 1/2 star rating by Golf Digest. Their Par 72, 6800 yard *Island Course*, features the only natural island green in the state of Wisconsin. Their Par 70, 6000 yard *Falls Course*, while shorter, offers plenty of twists and turns, water obstacles, and 60 feet of ups & downs. The club also offers a two-tiered practice range voted one of the top 50 ranges in the United States as well as a comprehensive practice facility featuring chipping and putting greens.
