About NHU

New Horizons Un-Limited (NHU) is a Milwaukee-based, non-profit, 501(c)3 organization serving individuals with lifelong disabilities and their families since 1994.

New Horizons Un-Limited has three basic goals.

- Empower individuals with disabilities to change their own self-limiting perceptions.
- Make accessible to individuals with disabilities the opportunity to experience life with dignity, as an equal member of society.
- Bring society to value and welcome individuals with disabilities into the community at large.

From our quarterly newsletter and our internationally accessed website, to our computer grant and skills training programs; we are working to provide our community members with disabilities greater access to the information, tools and opportunities that will improve their lives.

- This past year, more than 340,000 unique individuals from across the United States and the World, benefited from the guidance offered via our website and information and referral service.
- Since our program launch in 2004, more than 400 Wisconsin residents with disabilities have been granted a refurbished computer via our Access Technology Computer Redistribution Program.
- This past year, NHU offered more than 200 hours of support and training to our computer grant recipients.
- This past year, hundreds of families including individuals with physical disabilities found a peaceful retreat in the accessible cabins we have supported via our collaboration with the Wisconsin DNR.
