

Michigan Developmental Disabilities Council

Community Dental Programs

This booklet contains listings of community programs that provide dental services to individuals with special considerations. These resources are from the Michigan Dental Association's website, www.smilemichigan.com. These programs offer services to seniors, low-income individuals, patients on Medicaid, persons with disabilities, individuals with no dental insurance, children, individuals who are in nursing homes or are homebound, and others in need of dental care they could not otherwise afford.

To find out which programs are in your area, please refer to your county in the table of contents. If you are unable to find a program under your county, please refer to the "Statewide" listing or contact your local county health department for information on resources available to you.

Disclaimer: These are community resources updated as of August 2009 by the Michigan Dental Association. The Michigan Developmental Disabilities Council does not guarantee that these programs still offer services as described. All programs and services are subject to change. Please call your county programs for more information.
