- If you live in a residential care facility, special rules may apply.

A few acceptable forms of ID include:

If you DO NOT have a valid ID, you can obtain a FREE Wisconsin ID card from any Wisconsin Department of Motor Vehicle (DMV) office.

- You will need to present a Birth Certificate at the DMV
- If you do not have a Birth Certificate, the DMV can help you obtain a free copy.

Special Accommodations

Laws provide voters with disabilities the right to request accommodations at the polls so that they may exercise their right to vote.

Curbside Voting

If you are unable to enter the polling place due to accessibility restrictions, you may request that a poll worker bring the ballot to your vehicle. It is a good idea to either call your local Clerk's office ahead of time or bring a family member or friend along to request a curbside ballot.

Accessible Voting Machine

All polling places are required by law to have an accessible voting machine.

Requesting Assistance

Poll workers are available to assist voters with disabilities. Assistance can be requested at the time you receive your ballot.

You may also bring an individual (excluding an agent of your employer or union) to assist you in the voting booth.

Voting is Your RIGHT!

- **Americans with Disabilities Act (ADA):** Title II requires state and local governments to provide people with disabilities a full and equal opportunity to vote, including voter registration, polling site selection, and the casting of ballots.
- **Voting Rights Act of 1965 (VRA)** requires that any individual who is blind, or who has any other disability that prevents them from casting a ballot, be allowed assistance from a person of the voter's choice (other than the voter's employer or its agent or an officer or agent of the voter's union). Voters cannot be turned away on the basis of illiteracy.
- **Voting Accessibility for the Elderly and Handicapped Act of 1984 (VAEHA)** requires accessible polling places in federal elections. Where no accessible location is available, voters must be provided an alternate means of voting on Election Day.
- **Help America Vote Act of 2002 (HAVA)** requires the availability of at least one accessible voting system for persons with disabilities at each polling place in federal elections. The accessible voting system must provide the same access and participation, including privacy and independence, that other voters receive.
